

# Advisor Spotlight Success Story

## Advisor Testimonial

"I joined the Acquire and Leadjig team back in November and have utilized their services every month since. Having worked at another financial firm that did seminars, I can tell you that these guys do something special.

My events are full of quality prospects at locations that are not traditionally advertised for seminars. They have a unique way of pulling data and conduct regular strategy calls with me to determine the best prospects to target.

Tampa is a unique market and Acquire has had to think outside the box to maximize my success. They found great locations for my events and created zones so that we do not oversaturate my market. The team makes the whole process easy from start to finish, I'm glad I found Acquire and Leadjig."

**8,000
